

Opening the `calculator.html` file should result in the following:

Hello World JavaScript

Simple Calculator

<input type="text" value="0"/>	<input type="text" value="0"/>	<div>Add ▾</div>
<div>Calculate</div>		

Result:

By completing the assignment, the calculator should be working as expected. Simply, the user can input some number in the text fields, select the math operation of interest and use the button to calculate the result. For example, the following image shows the result of a simple addition using the shown numbers.

Hello World JavaScript

Simple Calculator

<input type="text" value="10"/>	<input type="text" value="20"/>	<div>Add ▾</div>
<div>Calculate</div>		

Result:
30
